Mrs. Nathan Sidel, *President, Women's Auxiliary*

REPORT OF THE PRESIDENT ..... *And Now We Build*

Isidor Slotnik

During the past year, substantial progress has been made on the Building Program. In June, we dedicated the new Ziskind Floor of the Yamins Building and this area was occupied as soon as it was completed. At the same time, renovations have been going on in other parts of the Yamins Building to add new research laboratories to the Hospital. We have also begun work on new elevators for the North Building and the first of these is now in operation with two more slated to be completed during the coming eight months.

Renovation of our Obstetrical-Gynecological floors resulted in a new nursery, redecorated patient rooms, a new formula room, a father's waiting room, and refurbished quarters for doctors.

Concurrently, plans for the construction of the Rabb Building call for a start in the Spring of 1963. At this time we will also begin the work of renovating the Emergency Unit and the Outpatient Department, as well as rededicating the North Building in honor of our own Florence L. and Mortimer C. Gryzmish.

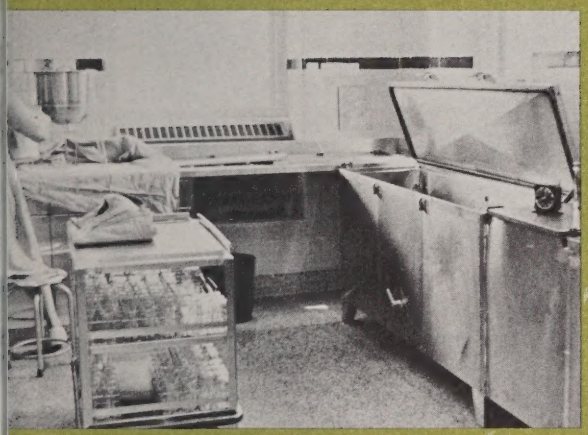
Our fund-raising efforts continue to meet success. The response of this community to the Beth Israel Hospital's needs has been most heartening. In addition, I am pleased to announce for the first time, two new federal grants, for construction under the Hill-Burton program.

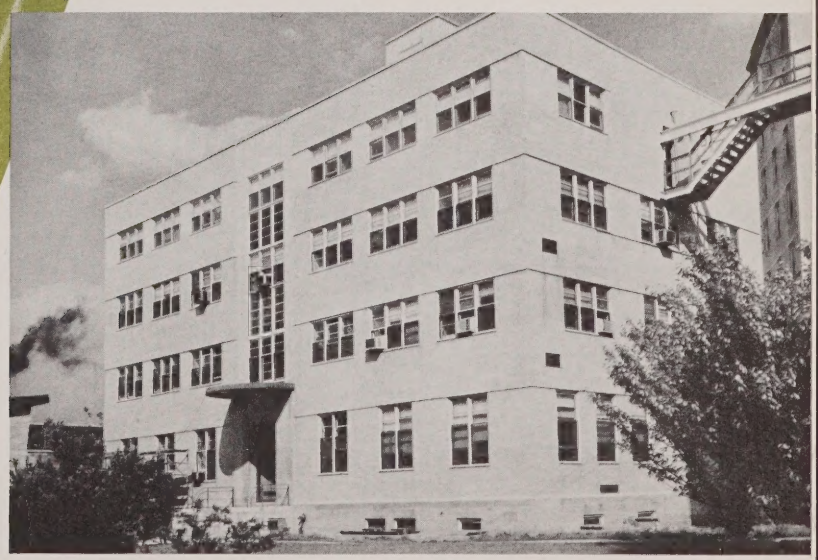
The first of these is for Physical Medicine and Rehabilitation facilities in the amount of $155,000. The second is a general hospital construction grant in the amount of $400,000. These two grants, with the earlier one for health research facilities, bring the total federal participation in this Building Program to slightly over $1,400,000.

We are also grateful to the Massachusetts Department of Public Health for its assistance in securing these grants for us.

As President of Beth Israel Hospital, I am privileged to express my thanks publicly for the splendid cooperation I have received from Dr. Sidney S. Lee and his administrative staff, from the medical staff, from my fellow officers and trustees and from the community, whose combined efforts of loyalty and devotion make the duties of the President easier to fulfill. My thanks are sincere and abundant.

Isidor Slotnik





BETH ISRAEL HOSPITAL ASSOCIATION

Comparative Statement of Income and Expense
For the Years Ended September 30, 1962 and 1961

	1962	1961

NON-OPERATING SURPLUS Used to Reduce Operating Deficit	$ 833,074	$ 917,942
FINAL DEFICIT	$ 181,870	$ 243,012

REPORT OF THE GENERAL DIRECTOR *In Pursuit of Excellence*

Sidney S. Lee, M.D., Dr. P.H.

For Beth Israel Hospital the past year has been marked — as it has been since the day it opened its doors — by the pursuit of excellence in patient care, teaching and research. The forward momentum generated during the past few years of planning for expanded facilities and services was accelerated in all fields.

With this activity has come a heightened sense of our responsibility to provide quality services. We do not aspire to be the largest hospital in the community. But we do try to be the best. In order to do so we strive constantly to improve what we do.

One of the most important elements in this search for high quality is the caliber of the people who perform their professional roles in the hospital — and above all in their leadership.

During the past year Beth Israel was fortunate in bringing into its professional family several outstanding people—and with their arrival we are witnessing a tremendous spurt of progressive activity.

Two of the most important developments in implementing the Trustees' decision to staff all major services with full-time Chiefs with professorial status at the Harvard Medical School was the appointment of Dr. Hilton A. Salhanick as Obstetrician - Gynecologist - in - Chief and Professor of Obstetrics and Gynecology at Beth Israel; and that of Dr. Robert J. Shapiro as Radiologist-in-Chief and Professor of Radiology at Beth Israel.

Dr. Herrman L. Blumgart, known to many generations of medical students and countless physicians and patients as an outstanding doctor, teacher and researcher, retired from his posts as Physician-in-Chief and Director of Medical Research at Beth Israel, and Professor of Medicine at Harvard Medical School. Among the numerous honors and tributes paid to Dr. Blumgart were the creation of the Herrman Ludwig Blumgart Chair of Medicine at Harvard, and an honorary degree of Doctor of Science from Harvard University. Dr. Benjamin Alexander, a long-time distinguished member of the B.I. full-time staff, agreed to become Acting-Physician-in-Chief while a successor to Dr. Blumgart was sought.

Further recognition of the quality of professional leadership at Beth Israel came in the action of Harvard University in designating Dr. David G. Freiman, our Pathologist-in-Chief, as Professor of Pathology at Beth Israel and promoting Dr. Louis Wolff, Head of our Cardiography Unit, to Clinical Professor in Medicine.

Major developments in Medicine continued to expand our ability to provide excellent patient care, teaching and research. Among the most notable of these events were the initiation of our new Clinical Research Center for the study of aging and arteriosclerosis, and the completion of construction of the Jacob Ziskind Floor of the Yamins Research Building. The Research Center, financed by a seven year grant of $2,250,000 from the National Institute of Health, is under the direction of Dr. Stanford Wessler. Completion of the Ziskind Floor has further stimulated our research program in all fields.

The growth of the Pediatrics Service, under the direction of Dr. Robert Berg, Pediatrician-in-Chief and Associate in Pediatrics at Beth Israel was signalled by several exciting developments. Last year almost twice as many children were admitted to the service or seen in the clinic as five years ago. For the first time in its history the Service became responsible for pediatric training of third-year Harvard Medical School students and also began instruction in care of the newborn for fourth-year students assigned to Obstetrics. Other important developments were an increase in the number of physicians making formal rounds on the Service, institution of a play-therapy program, and renovation of the Pediatrics Ward. With Dr. Shapiro assuming active direction of the Radiology Department, that service began the expansion of facilities and equipment, renovation of quarters, and extended teaching and consultation programs.

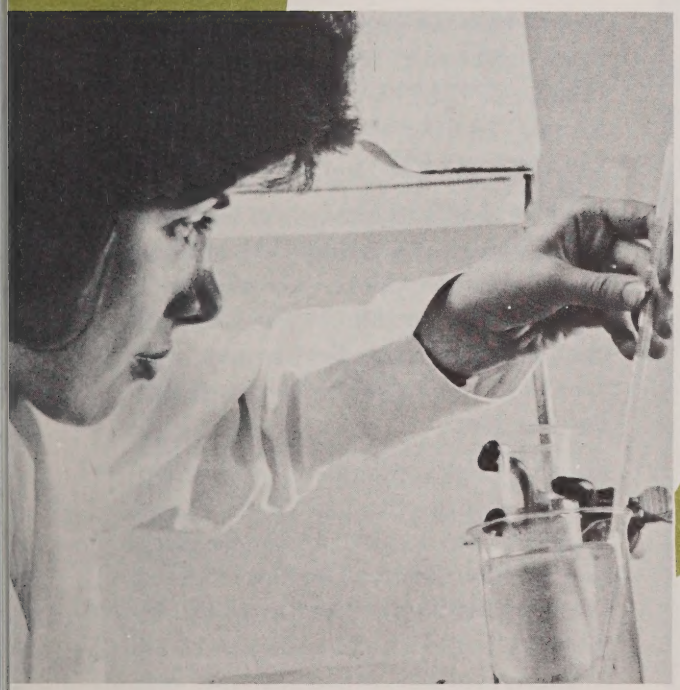
New developments in the Obstetrics-Gynecology Service took shape last year. Among these accreditation of a full Residency program in OBS-GYN, initiation of a new Gynecology Study Clinic, and construction of a new research laboratory in the Yamins Research Building.

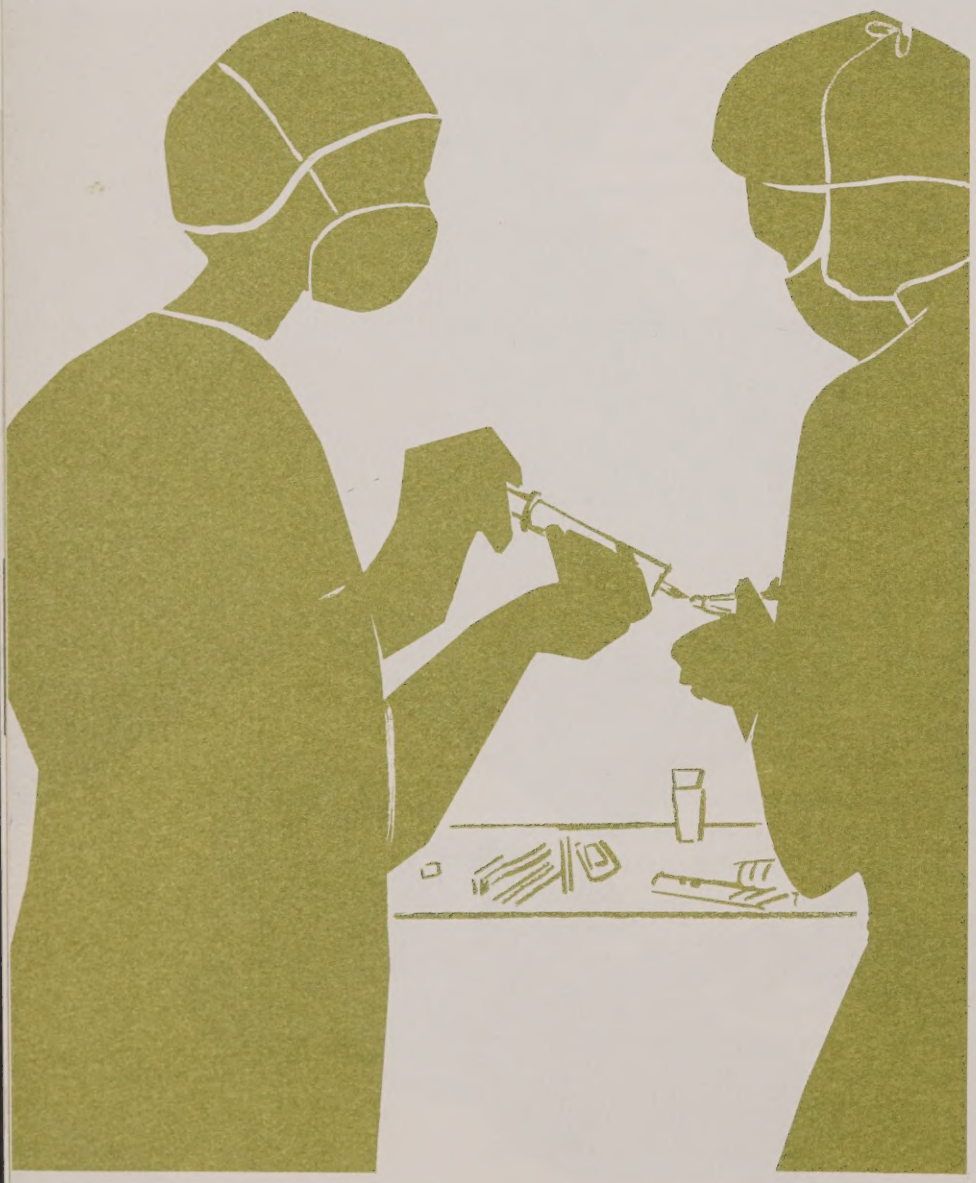
The Psychiatric Service, under Dr. Grete L. Bibring, Psychiatrist-in-Chief at Beth Israel and Clinical Professor of Psychiatry at Harvard, continued its active program of residency training, teaching for physicians in specialized fields and general practitioners, research and treatment. Last year the Service registered 6,339 visits by adults and children for treatment in addition to its extensive teaching and consultative activities.

In its research program the Psychiatric Service has almost completed a study on the Psychological Course of Pregnancy and, among other projects, has undertaken a psychological study of patients with coronary artery disease.

Service Statistics *(October 1, 1961 - September 30, 1962)*

Category	*1961-62*
Patients Admitted	11,871
Patient Days	105,335
Emergency Unit (Visits)	16,061
Outpatient Clinics (Visits)	58,526
Home Care (Patient Days)	14,256
Surgical Operations	5,204
Clinical Laboratory Tests	277,476
X-ray Examinations	30,020
Babies Born	2,540
Physical Medicine Treatments	8,398
Electrocardiography Exams	8,128





Dr. Bibring was also honored by election as the first woman President of the American Psychoanalytical Association.

The Emergency Unit and the Outpatient Department continued to serve the community on an expanded basis. Both of these services are under the direction of Dr. James J. Feeney, Director of Ambulatory Services. The Emergency Unit, which has expanded more than threefold during the past six years, saw 16,061 patients last year.

The Outpatient Department, which had 58,526 visits last year, experienced significant increases in several clinics: Blood Clinic, 28.8%; Gynecology, 66.7%; Rectal, 28.6%; Psychiatric, 20.6%; Children's, 19.6%; and Fracture, 15%.

Another significant service was the Home Care Department, which last year recorded 14,256 patient days of care. A total of 73 patients from ten communities in the Greater Boston area were cared for by the Home Care team during the year.

Social Service continued to play an important role in the total medical care offered by the hospital. Under the direction of Mrs. Beatrice Phillips, Director of the Social Service Department, the program included casework services to a larger number of patients than ever

before, consultation services to physicians and other hospital personnel, and participation in the educational and research programs within the hospital.

The Nursing Service, under the leadership of Miss Dora E. Zolotin, Director of Nursing, also played a key role in maintaining our standards of excellence, despite the chronic shortage of nurses which affects hospitals everywhere.

I would like to note too, the outstanding work done by our Department of Physical Medicine, led by Dr. William J. Shriber, who is also Clinical Associate in Medicine at Harvard. This department provided 8,398 treatments to 940 patients during this year.

These are only a few of the highlights of a busy and productive year. It is impossible to name the hundreds of people whose devotion to high standards of care have helped make it possible, but their work is greatly appreciated by all connected with the hospital.

The President has talked about the crucial role played by the leadership of the Hospital in driving our plans to a successful conclusion.

All of the exciting new developments I have reported, the enthusiasm of our staff in seeking ever higher standards of excellence in patient care, teaching and research, are sparked by the imaginative and courageous actions of our Officers. Board of Trustees, Board Committees, and our Women's Auxiliary. Through their forward looking policies we enjoy the means to engage always in the pursuit of excellence.

Sidney S. Lee MD

REPORT OF PRESIDENT WOMEN'S AUXILIARY

(Remarks made at the Annual Dinner of Beth Israel Hospital, November 20, 1962)

Mrs. Thelma Sidel

I deem it a great personal privilege to represent the Beth Israel Hospital Women's Auxiliary on this memorable occasion. We are gathered here this evening to do honor to our beloved Dr. Charles F. Wilinsky.

It is with much pride, Dr. Wilinsky, that I bring to you warm affectionate birthday greetings from the officers, the executive board and the more than 8,000 members of our Auxiliary. May you be blessed with many more happy birthdays which you so richly deserve.

This evening, speakers with great eloquence will tell of the many accomplishments of our distinguished guest. However, my remarks will encompass the achievements of the Women's Auxiliary during Dr. Wilinsky's directorship. He was a great source of strength and inspiration as well as an eye witness to and participant in much of the history and growth of the Women's Auxiliary.

Therefore in honoring him this evening it is appropriate that we pay tribute by enumerating some of the achievements made by the Women's Auxiliary during his tenure as Executive Director.

Our records show that the Women's Auxiliary contributed during these important Dr. Wilinsky years over one and a half million dollars.

This money was spent for the following projects:

In 1930 we built two private rooms and in the following year Auxiliary funds were used for the construction of the Electric Generator and Maintenance Shop. In 1934 the Auxiliary built a semi-private unit of 32 beds and a Children's Pavilion of 17 beds. Then in 1937, the waiting room of the Outpatient Department was air conditioned and we added clinics in this area, enlarged the X-ray quarters and added storage and linen rooms.

Just a few years later, our funds were used for the conversion of porches to a class room and waiting room. Then, in 1940, sound proof elevators were installed and housing quarters for interns were constructed. Two years later, we built a new research laboratory and five years after that Auxiliary money renovated and refurnished the north wing. As you know, we all take great pride in the realization of a major project which was of great significance to our hospital and our community. I refer to the building and furnishing of the Maternity Unit.

In addition to these significant landmarks during Dr. Wilinsky's hospital years, the Auxiliary showed a marked increase in annual and life membership from many hundreds to many thousands; there was progress in our Remembrance Fund for social service needs; also increased participation in the Volunteer Service; the establishment of our Gift

WOMEN'S AUXILIARY

Shop and our Thrift Shop; allocation of funds for our nurses in the form of scholarships, financial aid, recreation and library; landscaping and maintenance of the hospital grounds and above all the strengthening of our spiritual vision to bring health and happiness to many.

Inspired by the accomplishments of those early years, the Auxiliary continued and is continuing to serve the hospital in the above program and also whatever requests the hospital may make from time to time.

Knowing of your interest, Dr. Wilinsky, in tender loving care, we of the Beth Israel Hospital Women's Auxiliary honor ourselves by honoring you in celebrating your 80th birthday by the establishment of an annual nursing scholarship to be known as the Dr. Charles F. Wilinsky Scholarship. Sir, we salute you.

And now, Mr. Slotnik, as tangible evidence of another successful Auxiliary year, we are happy to announce that the total payment on our original pledge of $500,000 dollars for the Building and Expansion Fund in the Outpatient Department and Emergency Unit reaches $450,000 dollars this evening as I present to you this check for $ 85,000 dollars.

Thelma S. Sidel
